

## **O KANADA, BEHIND THE LINES IN OKA - 1990 MOHAWK CRISIS ON YOUTUBE**

MNN. Apr. 30, 2009. At dawn on July 11, 1990, the SQ [Quebec Provincial Police] opened fire with automatic guns and threw tear gas on Kanion'ke:haka Mohawk men, women and children of Kanehsatake. One policeman was killed by friendly police fire. We had been protesting the nearby town of Oka's plans to expand a golf course over our burial ground and common ceremonial site called THE PINES. Nearby Mohawks of Kahnawake quickly responded to fellow Mohawks by blocking the Mercier Bridge, which connects the south shore with the island of Montreal over the St. Lawrence River.

The RCMP and then thousands of Canadian Army with heavy armaments were sent in. The world watched in amazement as a small Indigenous nation faced the combined fire power of these three forces for 78 days.

It was a fight for Mohawk identity and territory against the oppressive designs of the colonial occupants of our land. We found ourselves in the middle of a struggle for identity, respect and resistance to oppression by Canada and Quebec.

Fifty-two men, women, children and 10 journalists held out in the Treatment Center that we called Concentration Camp TC. We were surrounded by razor wire manned by heavily armed soldiers, guns and tanks. We were without communication with the outside world, little food was coming in and the weather was getting cold. The army was stepping up its psychological warfare tactics. The colonists wanted to end the Mohawk Crisis that had plagued the summer of 1990. They wanted us to surrender. No way!

On September 26th 1990, the Ahserakowa gave us a coded message in Mohawk over the Kanehsatake Radio Station. He warned us to immediately vacate Concentration Camp TC because "something was coming down that night".

We broke into clans – bear, wolf and turtle – to make our final plans. Some felt we should stay until Monday when Parliament would start its fall session. The gravest political confrontation in modern Canadian history could then be debated.

At 5:00 pm our clans convened. We had all decided to leave in an hour. As two army helicopters hovered above us, everybody went into a flurry of preparations. Everything was thrown into a huge bonfire. A final purification ritual was performed before the sacred fire that had never stopped burning throughout the crisis. We said our good-byes to each other. We did not know what was going to happen when we would walk head-on into the Army.

Thousands of people and media had rushed to Kanehsatake. The whole finale was being televised live.

We tried to walk out of Concentration Camp TC to freedom. We crossed over the stretchers that had been placed over the razor wire. Immediately soldiers and cops grabbed us and began to kick, punch and beat us with their fists, guns and stabbed one child with a bayonet. In the end we were all captured.

The colonists maintained their false position that the Indigenous defenders were criminals and terrorists who threatened the public security of all. The colonists quickly brought us to trial on criminal charges. We were all acquitted except for Lasagna who was found guilty of breaking into a non-native home in Kanehsatake. We had transcended the colonial boundaries set up by Quebec, Canada and the U.S. under a European nation-state model on our territory.

Next year it will be 20 years since this attack. The 33 minute film - O Kanada: Behind the lines in Oka - is available on YouTube. It was made by Albert Nurenborg, a reporter who sneaked through the army lines with a camcorder and taped the event from inside:

### **BEEN THERE! DONE THAT!**

MNN. April 25, 2009. The Federal Emergency Management Agency FEMA has established facilities that look very much like concentration camps across the U.S. [YouTube: FEMA Concentration Camps in USA]. In Georgia half a million plastic coffins were discovered in a fenced area near an airport. [www.infowars.com]. We speculate that similar camps are being set up in other parts of the world. They are being called "shelters". This could be part of an old tactic that was used to wipe out over 100 million Indigenous people of the Western Hemisphere.

Our People were murdered, diseased, our food was destroyed and we had no place to live. After 99% of us died off, forts, missions and then reservations were set up to house the survivors. Up to recent times we could not leave our lockups without a pass. We were supposed to become subservient and to accept whatever was meted out to us.

Our children were taken from us and put into residential and boarding schools to be "educated". Many were corrupted by perverts and pedophiles or disappeared. The

goal was to break our tie with the natural world, each other and our love for humanity. These are the forces that are necessary to create true democracy.

The corporatist war lords today want to own the globe and control everything on it without resistance from anyone. Because Indigenous put nature first, someone decided that we had to be sacrificed. Most of us are forced to live in conditions of extreme poverty which is ignored by the world.

Remember that lockup in the New Orleans arena during Hurricane Katrina? Troops, cops and Blackwater confiscated legal weapons of the victims and shot people. Many were robbed and attacked. Some died due to lack of oxygen, sanitation and chaos. Roads were blocked. They could not escape. Presently droughts, unemployment, homelessness and a destroyed middle class could be slated for these centers. Before martial law is declared dissenters will be rounded up first. Afterwards the rest will be brought in and divided up into laborers and slaves. Those not useful will be "pushed aside". Today we are afraid of these shelters. Internet survival sites warn us to avoid them.

A small close knit group of about 1 per cent of the population plans to put in place and run a totalitarian dictatorship over the rest of us. Their enforcers are trained to kill or maim people without batting an eyelash. For the last 50 years this secret clique has been stealthily infiltrating institutions and agencies such as the government, police, military, commerce, medical, media and now the internet.

The sickening compliant United Nations will oversee global military power. These days hired mercenaries outnumber the soldiers, such as in Iraq and Afghanistan. Wars are being privatized using high tech well-equipped hired guns to do most of the fighting. The International Monetary Fund and World Bank will control the global markets and currencies. Soon they may conjure up a reason to declare martial law.

Incarcerations and killings will be at the discretion of the corporatist war lords. How about these new sicknesses that combine bird, pig and human viruses? The researchers who might have combined them say they are baffled. There are suspicions that this could be a targeted bacteria. Will the cures be available to everyone or only to the rich or citizens of certain states? Or are the "antidotes" meant to kill certain others? Is it meant to contain our movements? The old biological warfare tactic has been brought out of the time capsule.

Neglecting the poor is a sign of corporate fascism. "Why should I share?" yell U.S. citizens. This is becoming an accepted form of conduct. Self-centered and dishonest people want to eliminate those they decide are the refuse of society. Henry Kissinger, an advisor to President Obama, calls them "useless eaters". [ [www.population-security.org](http://www.population-security.org) ]. Henry, your ancestors were almost wiped out by a man [Adolph Hitler] who was preaching exactly what you are saying. Remember, those who seek power think they can work with these kinds of war mongers and remain safe. In the end, these fascists have been known to turn on their stooges and push them into the very cells and ovens they created together.

We Indigenous have the trump card! The Rotino'shonni:onwe, Iroquois Confederacy, developed the Kaianereh'ko:wa, the Great Law of Peace, a true democracy, on Onowaregeh, Great Turtle Island. It was based on real equality, sharing and

everyone having a voice. The whole world must equally benefit from the fruits of the earth.

Atotarho, the chairman of the Iroquois Confederacy, has no power. The power is in the people. The leaders must listen to the people. Equality is between the strong and the small, the rich and poor. Larger nations cannot usurp power from smaller nations. Little nations have more voice than the larger.

A private brotherhood of corporatists are going throughout the world to “acquire” everybody else’s resources and rights and to set up controls. The U.S. and the monstrous UN bastardized our ideas. The few demagogues twisted concepts that are good for humanity so they could enslave the many. The U.S. president has now federalized and centralized power. The Senate is supporting it and Congress has no say. The people have no voice.

We Indigenous have the moral authority over Great Turtle Island and the world. The Great Law is meant to bring harmony to the world. The U.S. and UN were supposed to spread the Great Law. Instead they have become victims of tyrants where everything is geared towards a military solution. The corporatists may have usurped the political and economic power over our territories. According to natural law, we Indigenous Peoples have the moral authority. We are warning the world that at this time Reason must prevail.

## **TOP BEASTS COME OUT OF LAIR TO PUSH CYBERSECURITY ACT 2009 – Full Court Press time!**

MNN. Apr. 18, 2009. The Europeans and their U.S. cohorts want to set up a European style overly inbred ruling aristocracy on Great Turtle Island. This will never happen. It doesn’t fit into our natural mind set or that of the average person.

What's happening? When a basketball team wants to win a game, a full defense is put into play. The opposing team puts full pressure on every opposing player in man-to-man play. They intimidate, shadow, block and keep their opponent preoccupied so they can't pass the ball. It is tiring and aggressive, meant to get control, confuse, to get the ball and then try to score.

The colonists' think tanks have decided to use a full court press tactic to put pressure on the Kanion'ke:haka, Mohawk. They concluded in effect that, "They're in our way. They have laws and rights. They won't give up anything. Let's [illegally] legislate them out of existence, silence their spokespeople and tear down their economy. We can't let them stir up the blood covenants between them which are sealed by burning tobacco. Let's get rid of the tobacco. We can't let their smoke signals permeate Great Turtle Island or the rest of the world".

The public sees these strange attacks on us. Like us, they want to live in a democracy where everyone is equal and has a voice. The corporatists try to reduce people and other living organisms to the deadness of the dollar. Genuine people do not want to live in a totalitarian system where corporatists try to take over the internet, our lives, our economy and our future. They get high thinking they have the right to decide whether we live or die.

The process of genocide and enslavement is not going fast enough for these thugs. They are going after anyone they think is telling the truth to the world on the internet. Obama was handpicked by the corporatists known as the Atlantic Conglomerate. The corporate propaganda rags are falling like dominoes. Inventing unsubstantiated fear, Obama is trying to pass a cybersecurity bill to, "protect our critical infra structure at all costs, from our water to our electricity, banks, traffic, electronic health records, the list goes on". It's a dictatorship to protect commerce and control people. The president declares the emergency. Privacy laws will be violated so they can get all our information without cause or warrants. The White House is appointing a Cyber Czar to put their fingers over our eyes to create ignorant masses. It will be run mostly by "Fusion Centers" made up of military, FBI and CIA. Anybody who criticizes the government is called a right wing extremist. Our only source of information will be their corporate media. The YouTube has already been censored.

Why the hurry? The Iraq veterans are returning, asking questions and need jobs. For the "Order out of chaos" program, chaos is needed to bring in their "order".

Bills 773 and 778 were introduced by Senator John D. Rockefeller IV. The Rockefellers made their first fortune through Standard Oil of New Jersey by stealing our natural resources. Then they set up the Chase Manhattan Bank. A conglomerate of all banks in the world was formed to create money out of thin air. In collusion with the European bankers, the private Federal Reserve System was set up to print money. With nothing to back it up, the debt system is collapsing on itself. Property values are falling to almost nothing. The money barons are buying up all the real estate. When the recession is over, they hope to become the great slum landlords.

The great natural power made us Indigenous of Great Turtle Island of one blood and of the same soil. Only different tongues constitute different nations with different

hunting grounds and territories. Each nation has its own Council Fires, which have never been quenched. We agreed to govern our affairs by the Great Peace.

We Rotinoshonniwe, Iroquois, have the duty to be ever on the alert to dangers in the eastern half of Great Turtle Island. We stood strong during the original onslaught of the Europeans that was promoted by their brutal feudal slave masters. We remain vigilant today as we climb to the top of the buildings and bridges built with help of our men. They look over the horizon for any dangers that are coming. We have the duty to call all our people together beneath the Tree of the Great Peace and say: "A calamity threatens your happiness". The people shall convene and discuss the impending evil.

We must spread the Great Peace by using reason. Should any try to destroy the Great Peace, we will be forced to call them the enemies of the people and of the Great Peace. The Ahserakowa and his men shall warn them that they must live according to the Great Peace or leave.

The Mohawks were the first to accept the Great Law. We helped the founder, Deganawida, gather the other nations together. The invaders had to stop the spread of the Great Law of Peace in order to take over Great Turtle Island. They were unsuccessful. We settled in strategic areas of our territory, throughout the north and south of the St. Lawrence and Great Lakes waterways and along the eastern seaboard. We were some of the first negotiators to face the invaders. We told them this territory is ours and cannot ever be given up. Many campaigns were launched to annihilate us. We continue to be the caretakers of Great Turtle Island.

Haudenosaunee territory is one of the biggest power bases in the world. Wall Street is the world financial center, the Pentagon is the military center, West Point on the Hudson River trains war mongers and the UN is the international department of Indian Affairs. The UN is in a Rockefeller owned building and their bank handles their account. The "liberal eastern establishment" and their designated world leaders go to ivy league universities like Harvard, Yale and Princeton. Their secret organizations like the "skull and bones" pledge to rule the world.

The Kanionkehaka, Mohawks, continue to be the "keepers of the eastern door". We are "the people of the flint" because we have a flint-like resistance. We have the duty to go to the top of the Tree of Peace and yell out to the world that there is danger coming to the entire earth perpetrated by colonial institutions located on our territory.

We built bridges and tall buildings as a barrier to those wanting to take over Great Turtle Island. The guns of the multi national banksters are aimed at us. They will never destroy us. They will never drive us from taking care of Great Turtle Island. This is the reason for our existence.

## **OBAMA SAID, "THE LINES OF TRIBE SHALL SOON DISSOLVE". A DECLARATION OF WAR?**

MNN. Apr. 15, 2009. Rahnatakias, "the village destroyer", as the U.S. Presidency is called, in his inaugural speech said, "the lines of tribe shall SOON dissolve". He is referring to the extensive covenants between indigenous nations on Great Turtle Island . The bankster thugs want to get the rightful custodians out of their way.

Our powerful ancient covenants make us of one blood and inseparable. Each party has to look out for the interests of the others. These are enduring compacts between friends, family and nation. We symbolically intermingle our blood witnessed by Kasatstensera kowa sa oiera, the great natural power. The tie cannot be dissolved. The original plan was to unite all indigenous nations. Over 200 nations joined this covenant.

Obama, an African, understands covenant relationships between 'tribes'. He is going to try to shatter the ties that bind our people on Great Turtle Island. Nobody has been able to do that for 400 years. Several approaches are being used. One is the PBS series of five so-called history films called "We shall remain" that started on April 12, 2009 [[www.pbs.org/wgbh/amex/weshallremain/](http://www.pbs.org/wgbh/amex/weshallremain/)]. We are portrayed as losers.

To advertise the series the symbol of defeat is a falling tipi with the stars and stripes flag falling over it. Another strategy is to wipe out Indigenous people altogether to be replaced by surrogate "Indians" who will work more closely to help the foreign invaders fulfill their goals.

Obama is also using gangster style extortion from tobacco farmers to stop us from trading and sustaining our families and communities. According to his new law, he wants his cut first. Most of these covenants were made with the exchange and burning of tobacco, which were signaled to all parts of Great Turtle Island. The colonists desecrated the use of tobacco by turning it into a habit-forming commercial product.

In the "It's No Use" series, the Wampanoags, are the "people of the first light". Massasoit knew when he made agreements with the invaders that he represented the interests of all Indigenous. In film two Tecumseh tries to invoke the covenant relationships with other nations to defend Great Turtle Island. The third is about the Trail of Tears. The fourth is about the great Apache Warrior, Geronimo, who was caught by the U.S. army when his family was held hostage. Wounded Knee is about the American Indian Movement's stand at Wounded Knee. They are all downers!

The son of Massassoit organized resistance and started to attack the villages of the foreigners. They say the Mohawk showed up as friends of the British and attacked the Narragansetts. We are allies, not puppets of the colonists. At the time the confederacy controlled all the waterways. The Mohawks were the brokers. The Europeans could not profit as before. We are portrayed as double crossers of our own people. These deceptive messages are sponsored by multinational corporations like George S. & Delores Eccles Foundation, [gseq@gsecclles.org](mailto:gseq@gsecclles.org) ; Lawrence & Janet T. Dee Foundation [www.kued.org](http://www.kued.org) ; Utah State Office of Education [www.Utah.edu](http://www.Utah.edu) ; and WGBH [www.wgbh.org](http://www.wgbh.org) 801-581-7777.

The dishonest message is that we have nothing left and that foreigners defeated us despite our covenants. While foreigners were making covenants with us they were planning to kill us off. There is a curse upon those who break such solemn promises.

Foreigners appointed submissive members of our people to sign illegal agreements with them. We never and cannot ever surrender our territories. Now colonists are creating surrogates into covenant people who will be docile domesticated Indians. No one can create us except an Indigenous woman.

The foreigners killed off 115 million of us in the biggest holocaust in all humanity. Now they've come up with a new trick. Obama and his backers want to create surrogate Indigenous people who resemble Iroquois, Algonquin, Lakota, Navajo and so on. They may look like us, learn to act like us but they can never think like us.

It's about going red to get the greenbacks! Canada created Algonquins by signing up non-natives in a program headed by [Mother] Joan Holmes and the Department of Indian Affairs. These "No'gonquins" are set up to fraudulently sign away vast areas of Haudenosaunee, Iroquois, territory. Their backers and lobbyists promise these "No'hawks" casinos and a few dollars.

In another swindle the Congress of Aboriginal People CAP Patrick Brazeau is signing up enough settlers to become "Metis" to outnumber the real Indigenous. Some native people are being roped into this confidence game. In a recent Kanehsatake Mohawk election, Mother Joan signed up hundreds of secret non-Indians who voted by proxy to put in the colonial nominee as chief. Prime Minister Stephen Harper appointed Brazeau to "sleep it off" in the Senate as a reward for setting up this CAP scam.

Everything comes down to bloodlines. When Hitler was going to kill off the Jews, he listed those with as little as one/thirty-second Jewish blood for annihilation. Then the Kazars of Eastern Europe who were Zionists helped set up the state of Israel in the Middle East.

According to the Great Law of Peace the lineal descent of the people shall run in the female line. The clan mothers are the keepers of the authorized names [not the colonial governmental entities] and holders of the land.

The soil of the earth from one end to the other is that of the people who inhabit it since time immemorial. We Ongwehonwe are the caretakers of the soil. As Louis Karonhiaktajeh Hall said, "The so-called "conquest of America" is a bare-faced robbery of Indigenous territory". No race of foreign people has a right to invade and kill other races. They cannot try to control, interfere with or injure the people or disregard the Great Peace.

They have not broken our spirit. In the beginning the Europeans joined us. Those who came across the great salt water could never become Indigenous. They could remain on their ship with their ways.

Obama passed a law unto himself that before tobacco is shipped from the plantations in the Carolinas to Indigenous communities, he must be paid up front. It's like the 1940s and 1950s when everyone was on the take. Businesses had to pay protection money to keep off strong arm enforcers. If they did not, their premises could get damaged or they or their relatives might get hurt or even killed. During prohibition everyone had to grease their palms. Then the people had enough and rebelled.

Capitalism is falsely called a "free market" system. Actually it is a monopoly of big business and government with control from England. Big Tobacco has to pay billions in fines to Canada for their former smuggling operations. None went to jail. They want no competition from us. Yes, the reptiles are slithering in the grass!

## **LIKE TAMIL TIGERS, IROQUOIS EXISTENCE THREATENED – COLONIAL POWERS TRYING TO EXERCISE SURROGATE AUTHORITY OVER ARCTIC**

MNN. Apr. 11, 2009. The self-observed power brokers of the world have designated certain people for extinction. Their skills are being honed for use on other targets. The Tamil Tigers were brought from India to Sri Lanka by the British to be slave labor on their plantations. In 1948 the British, Dutch and Portuguese colonist

were kicked out. The majority Sinhalese passed anti-Tamil laws. The U.S., supported by the United Nations, declared the Tamils as a “terrorist organization”. No one in the world is allowed to help them with food, medical aid, housing, funds and any human rights they are entitled to according to international law. Supporters can be criminalized. Their money and assets can be confiscated. The Tamils have been bombed and murdered. Approximately 64,000 have been killed and 1 million displaced as of May 2006. If they are not killed off, they will be starved to death.  
<http://www.bbc.co.uk>

The Mohawk Rotiskenekete have been listed as “insurgents” in the training manual of the Canada Department of Defense [2007]. The Mohawk Warriors are listed as “a terrorist threat to the U.S.” [ [www.globalsecurity.org](http://www.globalsecurity.org) ]. We are being propagandized in the media day after day as dangerous criminals by the misnamed “Center for Public Integrity” of Washington DC. Soon anyone associated with us may be targeted, charged and have their assets seized.

We are targeted because the true authority on Great Turtle Island is the inherent system of the Indigenous peoples. To exercise true power, foreigners must eliminate the legitimate authority. Otherwise, they can never put their roots into our land and legally take our possessions. In 1995 international scientists of the U.S. Human Genome Organization HUGO stealthily collected DNA from over 700 Indigenous groups all over the world [ [www.nativeweb.org/pages/legal/gene](http://www.nativeweb.org/pages/legal/gene) ]. The power gangsters had to know who are the true Indigenous authorities over various areas of the world that they covet. We have been categorized and now we are being isolated for genocide.

Our trade and commerce are being destroyed. Our youth are being targeted, arrested, jailed and given criminal records and huge fines with no hope of ever paying them in two lifetimes. Toxic waste is being dropped near our communities. We are being forced to live in 3rd world conditions to cut down our birthrate and longevity. Our children are being “disappeared”.

In June 2008 the subversive Bilderberg group met in Ottawa. The attendees slithered into town. It included 130 European royalty, national leaders, bankers, political, military and economic power brokers and heads of multi national corporations. Hilary Clinton and Barack Obama slinked in through the garage door. [ <http://www.theglobeandmail.com/servlet/story/RTGAM.20060608.wbilder0608/BNStory/National/home> ] Decisions were made. Obama became the president of the United States. Extinction of Indigenous peoples has been expedited. It looks like the UN has been rigged to help with this process. A new global government is in the works, giving themselves legislative powers to supersede the sovereign nations of the world. Obama warned us in his inaugural speech that, “..the lines of tribes shall be dissolved”. His plans are very clear to us!

They will never get rid of us. We Rotinoshonionwe are deemed dangerous to them because we constantly raise the indigenous sovereignty issue. They can't legally murder us outright like they did in the past. We are being systematically demonized by international propagandists to set us up for the kill. Laws are passed to make it look legal to throw us in jail, torture us, kill us, starve us, attack us and do whatever is necessary to take us out. Hard as they've tried, they couldn't kill us all off. We are the legitimate people of the land! There is a protection over us. We keep resisting their laws. They are foreigners who have no right to make laws here.

Russia is trying to illegally claim northern Great Turtle Island by exercising false surrogate powers. They want the oil, resources and the new shipping channels. They say this is not part of the colony of Canada. They have been flying MIGs and sending ships to the Arctic to intimidate Canada. In fact, only the Inuit are the legitimate sovereigns of this territory. Colonial powers such as Canada, Russia, U.S. and Denmark cannot claim it even though they are fighting over our land amongst themselves.

Canada knows the power of our authority. Canada is squatting on our land. Prime Minister Harper erroneously claims that the Russians are violating "Canadian sovereignty". They know they have to display the Inuit as the Indigenous people of the area by parading them around as the legal occupants. Harper claims, "The Inuit are Canadian citizens who have lived there for thousands of years!!!" How's that? The colony of Canada was formed in 1867!! Canada fears asking the U.S. for help as they think they would just take it over. At the same time, Canada has slated those of us who are in the way of their greed to be extinguished.

In 1954 Canada and U.S. built the Distant Early Warning [DEW] radar stations in the far north to detect Soviet attacks. It became the NORAD air defense. [[http://en.wikipedia.org/wiki/Distant\\_Early\\_Warning\\_Line](http://en.wikipedia.org/wiki/Distant_Early_Warning_Line)]. To maintain the presence of the Inuit in the area, Canada created subsidized communities so they will stay there. The Inuit could not live there because of the destruction of the land, flora, fauna and animals. Many Inuit perished.

Harper is presently inviting his international cohorts to invest in our unsundered territories and resources. He is putting up our possessions as collateral to raise money from the ignorant global public. This corruption is a massive fraud. Indigenous people worldwide are resisting this genocidal usurpation that has been going on for centuries. So that it will no longer be theft, politicians and business people must now legally and fairly recognize they have no choice but to deal with Indigenous people everywhere in the world. We must be respected, not terminated.

We are being demonized to cut us off from any economic means of survival. They are trying to destroy any defense we might have from the scourge of those colonists whose greed knows no bounds. Over ten articles denouncing us have been published in the local rag known as the Montreal Gazette, instigated by the Center for Public Integrity. We hear the Gazette is going out of business soon. Yeah!! The Center serves Big Tobacco, which is headquartered in London England, who don't want any competition from Indigenous people. The Center pretends to be against smoking while it attacks us. It is supported by foundations such as Carnegie, Ford, JEHT, John D. and Catharine T. MacArthur, Park, Rockefeller and PIERS .

We will always exercise our right to remain as the caretakers of Great Turtle Island and for the right to survive. Our responsibilities cannot be ignored. Putting us on the "hit list" will not stop us from carrying out our duties.

Moreover, we are considered threatening because we developed the true democracy where everyone is equal and has a voice [Kaianereh'ko:wa, Great Law of Peace]. This gets in the way of those dictators who are setting up global totalitarianism. Are these fascists trying to kill off the originators of true freedom, democracy, environmentalism and human rights? There is no doubt they will be foiled again!

## **"OPERATIVE" JOURNALISTS TRYING TO SET U P INDIGENOUS PEOPLE FOR ATTACK?**

MNN. April 1, 2009. The colonies of U.S. and Canada know we, the Rotinoshonnonwe, have a birthright to conduct trade and commerce on our homeland, Onowaregeh, Great Turtle Island. State and Federal authorities cannot legally stop us except by coercion, breaking laws, criminalizing and threatening us. We are peaceful, law abiding and take care of our families and communities. The misnomer Center for Public Integrity out of Washington DC has been putting out propaganda to produce racial hatred against us.

"Serial warfare" uses the media to set up the target for the attack. "Investigative journalists" seek the truth. "Operative journalists" use deceit, misinformation, destruction, psychological attacks and exaggeration on their "mark". They create suspicion and biases against us by falsely connecting us to "guns", "contraband", "drugs", "organized crime", "smuggling" and "global terrorism", to set the stage for an attack by U.S. and Canadian occupational forces, both military and corporate.

We are being criminalized by the foreigners for something that is not a crime. We have a right to trade and commerce. Tobacco is our product which we create on our homeland.

No violence is associated with any of our legitimate businesses. The only violence is that perpetrated on us by foreign cops and outside interests. No one supports those few business people who may be involved in drugs, similar to the U.S. government that was trading drugs for guns in the Iran-Contra affair, or the CIA releasing drugs in East LA [GaryWebb: Dark Alliance]. The colonists constantly criminalize almost anything we do that would make us independent. We have tried to play by the rules. The government raised the taxes and demands so high to try to control us that we could not sustain our businesses.

If most U.S. and Canadian businesses were criminalized or taxed too high to be viable, they may be forced to break their own laws to survive. The state has been trying to determine that the Mohawk People are "insurgents" to remove any human rights protections we have according to international law.

We would never carry out criminal economic enterprises like Bernie Madoff, AIG, Wall Street bankers and all the other corrupt scum bags who have created the worldwide melt down. These are the kinds of interests that are coming after us.

The "operative media" plays a major role. Mainstream papers are losing circulation, influence and advertising. Many like the Montreal Gazette have become cheap sensation seeking rags. They divert the public from their own dire situations by ganging up on the "Indians", a target they think can't defend themselves.

The Center for Public Integrity is a propagandist of racial hatred which is a precursor to genocide. They criminalize and slander us for whoever hired them to set us up for the kill. This group of media whores may be lobbying for Big Tobacco and the foundations that fund them. They are "generously" funded by the Johns Hopkins Bloomberg School of Public Health. NYC Mayor and billionaire, Michael Bloomberg, constantly condemns "Indians" and tobacco and hires journalistic "hit men" to assassinate both. Other donators are the Carnegie Corporation of New York, Ford Foundation, JEHT Foundation, John D. and Catharine T. MacArthur Foundation, Park Foundation, Rockefeller Foundation and PIERS Port Import Export Reporting Services.

Their propaganda does not mention that the police forces are involved in stealing our products and money such as the Ontario Provincial Police, Surete du Quebec, RCMP, NYS Troopers, U.S. and Canada Customs Border Patrol, Cornwall, Montreal and other city cops. They hijack our products and then sell them to their own customers. This is known as the silent "blue market". Many of our people don't get a summons to go to court to reclaim our possessions. We sometimes find our vehicles in the parking lots of various donut shops.

Big Tobacco companies such as Rothman's, Imperial and RJ Reynolds are headquartered in Britain. They don't want any competition or for Indigenous to profit from trade in our own products. They want to be the only game in town, make the rules for everybody and call in the military on some made up pretext.

Tobacco is legal. The fear is that the profits are being invested in our youth, families and communities which will make us stronger. Onowaregeh, Great Turtle Island, is the richest territory in the world. The invaders want to keep us as the poorest. If we had a real share of our own resources, we would not have to resort to what they call the "underground economy". We are not afraid to work in the light of day because we aren't criminals.

This is not about lost revenue or health care expenses in the U.S. and Canada. It's about loss of control over this aspect of our lives. The "extortion" they are crying over is chump change compared to the trillions of dollars they are stealing from us.

Yes, we have organized crime in our communities called "Indian Affairs" and other colonial agencies. Non-native business people and the colonial state, with the help of their "Indian" mules, use the protection of the colonial Indian Act and Federal Indian law "band" and "tribal" recognition to make money. They help build casinos and other developments on our lands from which we do not benefit or control. The "kingpins" are all on the outside. We're left with trying to clean up their mess! [MNN "Canada & Big Tobacco.." 2/6/09].

Big Tobacco and their global cohorts want everybody in the world to be under their thumb or otherwise eliminated. They are trying to corner us and cut us off from any means to survive. The streets of Kahnawake, Akwesasne, Kanehsatake, Cattaraugus and Tuscarora are safer than any street in Montreal, New York, Buffalo or Washington, D.C. This fear mongering hyperbole by the journalistic "guns for hire" of the multinationals and their colonial agents means we better get ready to defend ourselves. A big attack by the combined forces of the U.S. and Canada may be coming our way soon!
